### SUMMARY

A front-end developer who is passionate about solving complex software problems. Worked through 1300+ hours of online remote code learning. I am a reliable team member and ever dedicated to discovering new relevant technology to leverage solutions largely related to the tech field and generally. I have experience in coding, troubleshooting, file processing, and management, MS Office operations, and excellent customer service.

### SKILLS

**Front-End:** JavaScript, React, Redux, Nextjs, HTML5, CSS3

**Back-End:** Firebase.

**Tools & Methods:** Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, Chrome Dev Tools, MS Office.

**Professional:** Remote Pair-Programming, Teamwork, Mentoring, Effective communication, Organizational skills.

### EXPERIENCE

iStart Technologies Limited Remote  
April 2023 - Current

#### FRONT-END ENGINEER

- Ensured the full optimization of the software and projects delivered to clients and the company for maximum speed and scalability.
- Developed new user-facing features
- Built reusable codes for future use.
- Collaborated with other team members and stakeholders to bring 100% efficiency to all projects.
- Ensured all user inputs were validated before being submitted to the backend.
- Ensured the technical feasibility of UI/UX designs for every project.
- Continuously discovered, evaluated, and implemented new technologies to maximize development efficiency and application performance

HIGHLIGHTED PERSONAL PROJECTS Remote  
April 2022 – February 2023

**FRONT-END DEVELOPER**

[Tasty-Meals](#) – Designed a simple food order App where I implemented react

hooks like useState, useReducer, and Context Api and ensured meal orders could be accessed immediately.

· Built with Reactjs, Use-context API, and Redux.

[CovidCases](#) - This web application gets and displays statistics of Covid cases from an external API.

· Built with Reactjs, Api, and Redux.

MICROVERSE Remote  
August 2022 – September 2022

#### Mentor (Volunteer)

- Mentored three junior web developers, providing technical support through code reviews.
- Proposed more than four improvements to code organization to improve code quality and about 40% overall performance.

ByteWorks Technology Solutions Abuja, Nigeria  
November 2019 - February 2020

#### Data Entry Clerk

- Ensured over 10 customers daily had their data appropriately keyed into the company's website.
- Effectively coordinated the data entry process amongst a team of 10 younger staff, resulting in an extensive collation of data that met set deadlines and maximized over 40% of revenue for the company.
- Managed and supervised a team of 10 people effectively.

WOMEN-IN-TECH September 2022 - Current

#### Ambassador (Volunteer)

- Creating awareness for women to join the Tech field.

## EDUCATION

MICROVERSE

June 2022 – January 2023

**Remote Full Stack Web Development Program, Full Time**

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, JavaScript, React, and Redux.
- I developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

The UNIVERSITY OF NIGERIA, NSUKKA

August 2017 - December 2021

**BSC. Computer Science**

- Participated as a member of a software development club of 20 members on the School Campus.
- Studied and attained a degree in computer science.
